

# Safety information sheet

No safety data sheet is required for this product according to Article 31 of the REACH Regulation. required. This safety information sheet has been prepared on a voluntary basis.

Trade name: Brasil M5

Created on: 11.05.2011

Version: 749-5

Replaces: 749-4

Revised on: 10.06.2024

Page: 1 / 7

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Substance name/ trade name: **Brasil M5**

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Test dust

Uses advised against: -

### 1.3 Details of the supplier providing the safety information sheet

Manufacturer/ Supplier: KSL staubtechnik gmbh

Street/ P.O. Box: Westendstrasse 11

Nat.-Kenn./ Postcode/ City: DE - 89415 Lauingen

Telephone/ fax/ e-mail: +49 (0) 9072 / 95 00-0 / Fax: -50 / info@ksl-staubtechnik.de

### 1.4 Emergency number

+49 (0) 9072 / 95 00-0 (Availability: Mon-Thu 08:00-16:00, Fri 08:00-12:00)

## SECTION 2: Potential hazards

### 2.1 Classification of the substance or mixture

#### 2.1.1 Classification according to Regulation (EC) No 1272/2008

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008

This product contains less than 1 % respirable quartz.

### 2.2 Labelling elements

#### 2.2.1 Labelling elements according to Regulation (EC) No 1272/2008

Not subject to labelling according to Regulation (EC) No 1272/2008

### 2.3 Other hazards

The product is an inorganic substance and does not fulfil the criteria for PBT and vPvB substances according to Annex XIII of REACH Regulation 1907/2006/EC.

## SECTION 3: Composition/information on ingredients

### 3.1 Substances

This product is a mixture.

### 3.2 Mixtures

Composition/information on ingredients

Description of the mixture: **Brasil M5**

Hazardous components: none

Name	CAS No.	EC no.	Concentration range [wt.%]	Classification according to Regulation (EC) No 1272/2008
Silicon dioxide SiO <sub>2</sub>	14808-60-7	238-878-4	>= 98%	Not applicable
Iron oxide brown consisting of: C.I.Pigment Red 101 (Fe <sub>2</sub> O <sub>3</sub> ) Pigment Black 11 (Fe <sub>3</sub> O <sub>4</sub> )	1309-37-1 1309-38-2	215-168-2 215-169-8	<= 2%	-

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

#### General information:

If symptoms persist, it is advisable to consult a doctor. Substance/product and measures taken

Specify doctor.

#### After inhalation:

Provide fresh air. Dust from the throat and nose should be removed quickly. If symptoms such as discomfort, coughing or persistent irritation occur, consult a doctor. Inhalation should generally be avoided.

#### After skin contact:

Wash off with soap and water.

#### After eye contact:

If necessary, remove the contact lens and rinse the eye under running water with the eyelid open to remove all particles. If possible, use isotonic eye rinsing solution (0.9 % NaCl). Do not rub the eye dry, as additional corneal damage is possible due to the mechanical stress.

# Safety information sheet

No safety data sheet is required for this product according to Article 31 of the REACH Regulation. required. This safety information sheet has been prepared on a voluntary basis.

Trade name: Brasil M5

Created on: 11.05.2011

Version: 749-5

Replaces: 749-4

Revised on: 10.06.2024

Page: 2 / 7

## After ingestion:

Rinse mouth with plenty of water.

## 4.2 Most important symptoms and effects, both acute and delayed

Dust may cause irritation to the eyes and respiratory tract (due to exposure to foreign bodies).

## 4.3 Information on immediate medical assistance or specialised treatment

No special measures are known.

## SECTION 5: Fire-fighting measures

### 5.1 Extinguishing agent

#### Suitable:

Match the extinguishing agent to the work area/environment.

#### Unsuitable:

none

### 5.2 Special hazards arising from the substance or mixture

None. Non-flammable.

### 5.3 Instructions for firefighting

none

### 5.4 Additional notes

No measures are required as the mixture is not flammable.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

#### 6.1.1 Personnel not trained for emergencies

Avoid dust formation. Wear protective clothing as described in section 8. Follow the instructions for safe handling as described in section 7.

#### 6.1.2 Emergency services

Emergency plans are not required. However, respiratory protection is required in case of high dust exposure.

### 6.2 Environmental protection measures

No special environmental protection measures required.

### 6.3 Methods and material for containment and cleaning

#### 6.3.1 Instructions for retention

Avoid dust formation.

#### 6.3.2 Instructions for cleaning

Avoid inhalation. Avoid dry sweeping. Use approved spray and suction systems for cleaning. Use protective equipment.

#### 6.3.3 Information on unsuitable retention and cleaning methods

Blowing off for cleaning purposes is not permitted.

### 6.4 Reference to other sections

See also sections 8 and 13. Personal protective equipment is specified in section 8 of the safety data sheet.

## SECTION 7: Handling and storage

### 7.1 Protective measures for safe handling

#### 7.1.1 Notes on safe handling

Avoid dust formation and deposits. Handle packaged products carefully to prevent the packaging from bursting. Areas with dust formation must be equipped with suitable ventilation systems. If the workplace atmosphere is insufficiently dedusted, wear suitable respiratory protection (in accordance with EN 143). Gloves according to EN 374 are recommended.

#### Measures to protect against fire and explosions

No special measures required.

#### Measures to prevent aerosol and dust formation

Only sweep with a suitable sweeping brush. If possible, use suitable dry cleaning methods such as vacuum suction that do not generate dust.

#### Measures to protect the environment

No special measures required.

#### 7.1.2 Notes on general hygiene measures

Do not eat, drink or smoke while working. Wash hands after use/contact. Wear a respirator and safety goggles in dusty atmospheres.

# Safety information sheet

No safety data sheet is required for this product according to Article 31 of the REACH Regulation. required. This safety information sheet has been prepared on a voluntary basis.

Trade name: Brasil M5  
Created on: 11.05.2011 Version: 749-5 Replaces: 749-4  
Revised on: 10.06.2024 Page: 3 / 7

## 7.2 Conditions for safe storage in consideration of incompatibilities

### Information on the storage conditions

Store dry and tightly closed, if possible in the original container. Keep away from food and beverages.

### Requirements for storage rooms and containers

No special measures are required.

### Storage class

VCI: 13 (non-flammable solids)

## 7.3 Specific end uses

### Industry and sector-specific guidelines

Use appropriately and sparingly with suitable test equipment depending on the intended use. No additional information is available for the specific end uses (see section 1.2).

Further information can be found, for example, in the guide to good practice on protecting workers' health through good handling and use of crystalline silica and products containing it (see section 16).

## SECTION 8: Exposure controls/ Personal protective equipment

### 8.1 Parameters to be monitored

Components with limit values that require monitoring at the workplace:

Chem. Identity	CAS No.	EC no.	National Limit value	Exposure type	Remark/ Legal regulation
More general Dust limit value	-	-	1.25 (A) mg/m <sup>3</sup> (alveolar)	inhalative	Occupational exposure li- mit TRGS 900
More general Dust limit value	-	-	10 (E) mg/m <sup>3</sup> (inhalable)	inhalative	Occupational exposure li- mit TRGS 900

### 8.2 Exposure controls and monitoring

A combination of technical and individual protective measures is often required to comply with the occupational exposure limit values. Technical control equipment and individual protection measures are recommended for the identified uses (section 1.2). Technical measures and the selection of suitable procedures take precedence over the use of personal protective equipment.

#### 8.2.1 Suitable technical control devices

Avoid or minimise dust formation. Use closed processes and local extraction equipment to keep the dust concentration below the permissible exposure limit. Use a ventilation system if there is a high proportion of dust in the air. If dust formation cannot be avoided, use ventilation to keep the dust content of the air below the exposure limit values. Apply organisational measures, e.g. by keeping people away from dusty areas.

Recommended measurement methods for workplace measurements: See publication series of the Employer's Liability Insurance Association.

#### 8.2.2 Individual protective measures, for example personal protective equipment

##### General

No personal protective equipment is required if the product is used as intended. Handle the product in accordance with the safety instructions.

##### Face/eye protection

If dust is generated, wear closed safety goggles in accordance with EN 166.

##### Skin/hand protection

People who suffer from dermatitis or have particularly sensitive skin should take suitable protective measures (e.g. wear gloves or use protective cream). Wash hands after finishing work. The use of gloves in accordance with EN 374 is advantageous.

##### Respiratory protection

Install effective extraction and/or ventilate sufficiently. If the permissible exposure limit values are exceeded at the workplace, wear a respirator that complies with EU or national regulations (e.g. particle filter P2 in accordance with EN 143).

##### Hygiene measures

Do not eat, drink or smoke at work. Wash hands before breaks and at the end of work and shower if necessary. Avoid contact with eyes and skin. After work, workers should wash or shower and use skin care products. Clean contaminated clothing, shoes, watches etc. before reuse.

#### 8.2.3 Limitation and monitoring of environmental exposure

See also sections 6 and 7.

##### Air

Avoid drifting due to wind. Compliance with dust emission limits in accordance with the Technical Instructions on Air Quality Control.

##### Water

Waste water and groundwater regulations must be observed.

##### Floor

Compliance with the Federal Soil Protection Ordinance. No special control measures required.

# Safety information sheet

No safety data sheet is required for this product according to Article 31 of the REACH Regulation. required. This safety information sheet has been prepared on a voluntary basis.

Trade name: Brasil M5

Created on: 11.05.2011

Version: 749-5

Replaces: 749-4

Revised on: 10.06.2024

Page: 4 / 7

## SECTION 9: Physical and chemical properties

### 9.1 Information on the basic physical and chemical properties

(a)	<b>Physical state</b>	Powder - solid
(b)	<b>Colour</b>	reddish brown
(c)	<b>Odour</b>	odourless
(d)	<b>Melting point/freezing point</b>	> 1500° C
(e)	<b>Boiling point or initial boiling point and boiling range</b>	not applicable
(f)	<b>Flammability</b>	not applicable
(g)	<b>Lower and upper explosion limit</b>	does not apply to <u>solids</u> according to Regulation (EU) 2020/878.
(h)	<b>Flash point</b>	does not apply to gases, aerosols and <u>solids</u> according to Regulation (EU) 2020/878.
(i)	<b>Ignition temperature</b>	only applies to gases and liquids according to Regulation (EU) 2020/878.
(j)	<b>Decomposition temperature</b>	not applicable
(k)	<b>pH value</b>	6-8 (100 g/l at 20° C)
(l)	<b>Kinematic viscosity</b>	only applies to liquids according to Regulation (EU) 2020/878.
(m)	<b>Solubility</b>	negligible
(n)	<b>Partition coefficient n-octanol/water (log value)</b>	not applicable
(o)	<b>Vapour pressure</b>	not applicable
(p)	<b>Density and/or relative density</b>	no data available
(q)	<b>Relative vapour density</b>	only applies to gases and liquids according to Regulation (EU) 2020/878.
(r)	<b>Particle properties</b>	The X <sub>50</sub> value is between 0.5mm and 1.5mm.

### 9.2 Other information

Not applicable

#### 9.2.1 Information on physical hazard classes

Not applicable

#### 9.2.2 Other safety-related parameters

Not applicable

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

No dangerous reactions are known if stored and handled properly.

### 10.2 Chemical stability

The mixture is stable.

Component iron oxide (2%): > 80° C the product can become unstable and oxidise. This generates additional heat, which under unfavourable circumstances can lead to the ignition of flammable materials. Do not store near heat sources.

### 10.3 Possibility of hazardous reactions

none

### 10.4 Conditions to avoid

Moisture and water during storage can lead to lump formation and loss of product quality.  
Temperatures > 80° C

### 10.5 Incompatible materials

none

### 10.6 Hazardous decomposition products

none

## SECTION 11: Toxicological information

### 11.1 Information on hazard classes according to Regulation (EC) No 1272/2008

No toxicological data is available for the product.

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

- a) **Acute toxicity**  
Based on available data, the classification criteria are not met.
- b) **Corrosive/irritant effect on the skin**  
Based on available data, the classification criteria are not met.
- c) **Serious eye damage/irritation**  
Based on available data, the classification criteria are not met.
- d) **Sensitisation of the respiratory tract/skin**  
Based on available data, the classification criteria are not met.
- e) **Germ cell mutagenicity**  
Based on available data, the classification criteria are not met.
- f) **Carcinogenicity**  
Based on available data, the classification criteria are not met.
- g) **Reproductive toxicity**  
Based on available data, the classification criteria are not met.

# Safety information sheet

No safety data sheet is required for this product according to Article 31 of the REACH Regulation. required. This safety information sheet has been prepared on a voluntary basis.

Trade name: Brasil M5

Created on: 11.05.2011

Version: 749-5

Replaces: 749-4

Revised on: 10.06.2024

Page: 5 / 7

- h) Specific target organ toxicity at single exposure**  
Based on available data, the classification criteria are not met.
- i) Specific target organ toxicity with repeated exposure**  
Based on available data, the classification criteria are not met.
- j) Aspiration hazard**  
Based on available data, the classification criteria are not met.

## Delayed and immediate effects as well as chronic effects after short or long-term exposure

### Immediate effects

Irritation in the eye or respiratory tract due to exposure to foreign bodies is possible

### Chronic effects with prolonged exposure

Based on available data, the classification criteria are not met.

## 11.2 Information on other hazards

No endocrine disrupting properties or other adverse effects are known.

## SECTION 12: Environmental information

No ecotoxicological data is available for the product. Quartz is a naturally occurring mineral and is found worldwide. Adverse effects on the environment can be excluded.

### 12.1 Toxicity

No data available, as no data is available from the raw material supplier.

### 12.2 Persistence and degradability

Quartz cannot be biodegraded.

### 12.3 Bioaccumulative potential

No data available, as no data is available from the raw material supplier.

### 12.4 Mobility in soil

No data available, as no data is available from the raw material supplier.

### 12.5 Results of PBT and vPvB assessment

No data available, as no data is available from the raw material supplier.

### 12.6 Endocrine disrupting properties

No data available, as no data is available from the raw material supplier.

### 12.7 Other adverse effects

No data available, as no data is available from the raw material supplier.

## SECTION 13: Notes on disposal

### 13.1 Waste treatment processes

Pick up product dry. Generally avoid dust formation. Can be disposed of in accordance with local regulations.

#### Recommendation

Agree the exact waste code with the waste disposal company.

#### Waste code according to the Waste Catalogue Ordinance (AVV)

010410 - dusty and powdery waste

#### Treatment of cleaned/uncleaned packaging

150106 - Mixed packaging according to material recycling

## SECTION 14: Transport information

The product is not a dangerous good according to the transport regulations (ADR, RID, ADN, IMDG, ICAO/IATA).

### 14.1 UN number or ID number

Not applicable

### 14.2 UN proper shipping name

Not applicable

### 14.3 Transport hazard classes

Not applicable

### 14.4 Packaging group

Not applicable

# Safety information sheet

No safety data sheet is required for this product according to Article 31 of the REACH Regulation. required. This safety information sheet has been prepared on a voluntary basis.

Trade name: Brasil M5

Created on: 11.05.2011

Version: 749-5

Replaces: 749-4

Revised on: 10.06.2024

Page: 6 / 7

## 14.5 Environmental hazards

Not applicable

## 14.6 Special precautions for the user

No special measures

## 14.7 Transport in bulk by sea in accordance with IMO instruments

Not applicable

## SECTION 15: Legislation

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

The product does not fall under the registration obligation of EC Regulation 1907/2006 (REACH).

#### EU regulations

##### National regulations

When handling this product, the current version of the statutory regulations must be observed, including

AwSV Water hazard class: nwg - not hazardous to water  
TRGS 500 "Protective measures"  
TSGS 510 "Storage of hazardous substances in transportable containers"  
TRGS 559 "Mineral dust"  
TRGS 900 "Occupational exposure limits"  
Technical Instructions on Air Quality Control  
Ordinance on Occupational Health Care (ArbMedVV)  
BG principles for occupational medical check-ups  
MuSchG "Maternity Protection Act"  
JuSchG "Youth Protection Act"

### 15.2 Chemical safety assessment

No chemical safety assessment is required for this mixture.

## SECTION 16: Other information

### 16.1 Changes compared to the previous version

Header updated; paragraph 3.2: column "REACH" removed; paragraph 6.4: reference inserted; paragraph 9.1: adapted according to Regulation (EU) 2020/878; paragraph 9.2.1, 9.2.2: new inserted; paragraph 11.1: heading and list adapted to Regulation (EU) 2020/878; paragraph 11.2: new inserted; paragraph 12: editorial changes; paragraph 12.6: newly inserted; Paragraph 14.1, 14.7: headings adapted to the aforementioned regulation; Paragraph 15.1, 16.2, 16.4: water hazard class renamed from "VwVwS" to "AwSV" and reviewed; Paragraph 15.2: editorial changes; Paragraph 16.7: newly inserted; document has been transferred to a SIB with this version.

### 16.2 Abbreviations and acronyms

ADN	European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways
ADR	European Agreement concerning the International Carriage of Dangerous Goods by Road
ArbMedVV	Ordinance on Occupational Health Care
AwSV	Ordinance on Installations for the Handling of Substances Hazardous to Water
BG	Employer's Liability Insurance Association
CAS	Chemical Abstracts Service
CLP	Classification, labelling and packaging (Regulation (EC) No 1272/2008)
ECHA	European Chemicals Agency
IATA	International Air Transport Association
ICAO	International Civil Aviation Organisation
IMDG	International agreement on the Maritime transport of Dangerous Goods
PBT	Persistent, bio-accumulative and toxic (persistent, bio-accumulative, toxic)
REACH	Registration, Evaluation and Authorisation of Chemicals (Regulation (EC) 1907/2006)
RID	Regulations concerning the International Carriage of Dangerous Goods by Rail
MSDS	Safety Data Sheet
SIB	Safety Information Sheet
TRGS	Technical rules for hazardous substances
VCI	German Chemical Industry Association
vPvB	Very persistent, very bioaccumulative (very persistent, very bioaccumulative)

### 16.3 References and data sources

As sources of the most important data and technical information, we refer to information from the raw material suppliers/manufacturers or the ECHA database on the classification and labelling inventory.

# Safety information sheet

No safety data sheet is required for this product according to Article 31 of the REACH Regulation. required. This safety information sheet has been prepared on a voluntary basis.

Trade name: Brasil M5

Created on: 11.05.2011

Version: **749-5**

Replaces: 749-4

Revised on: 10.06.2024

Page: 7 / 7

## 16.4 Methods according to Article 9 of Regulation (EC) No 1272/2008 used to assess the information for the purpose of classification

No separate assessment of the mixture was carried out.

The transfer principles for the classification of mixtures according to Regulation (EC) No 1272/2008 Article 6, Paragraph 5 is applied.

The water hazard class of this mixture was categorised in accordance with the AwSV.

## 16.5 Training for employees

In addition to training programmes for employees on health, safety and the environment, companies must ensure that their employees can read and understand the safety information sheet and implement the requirements.

Employees must be made aware of the presence of crystalline quartz and trained in the proper handling of the product.

## 16.6 Social dialogue on respirable crystalline silica

On 25 April 2006, a cross-industry agreement on the protection of workers' health through the good handling and use of crystalline silica and products containing it was signed. This autonomous agreement, which was financially supported by the European Commission, is based on a guide to good practice. The provisions laid down in the agreement entered into force on 25 October 2006. The agreement was published in the Official Journal of the European Union (2006/C 279/02). The text of the agreement, its annexes and the best practice guide are available at <http://www.nepsi.eu> and provide useful information and guidance on the handling of products containing respirable crystalline silica. Literature references are available from EUROSIL (European Association of Industrial Silica Manufacturers).

## 16.7 Information about NANO

We do not use any nanotechnology processes and no synthetic nanomaterials are used in production. However, we cannot rule out the possibility that small quantities of nanoparticles may be present in the material. In order to obtain the desired particle size distribution in our product, the product is crushed and then sieved. It could be that some nanoparticles are produced in such a crushing process. The same also applies to products such as flour or sugar! It is therefore not possible to exclude NANO material.

## 16.8 Exclusion clause

The information in this safety information sheet describes the safety requirements of our product and is based on our current state of knowledge. It does not constitute a guarantee of product properties and does not establish a contractual legal relationship. This safety information sheet is intended solely as a source of information for the user. It has been compiled with the utmost care; no guarantee can be given for the correctness of the data or liability accepted for the consequences of printing, typesetting or transmission errors. Existing laws, ordinances and regulations, including those not mentioned in this data sheet, must be observed by the recipient of our products on their own responsibility.

The translation was carried out with the help of an online tool.
